Contents

1 Configuration

- Scenario A1
- No dynamics in demands, capitals, etc.

1.1 Technical innovation adoption

- Trial threshold noise: sd = 0.2
- Initial awareness probability: 0.05 (initial trial not spatially restricted)
- Adoption only triggered when social network changes regarding adoption
- New agents get aware of adopted neighbours

1.2 Run Information

```
Error in if (tools::file_ext(filename) == "ods") {:  argument is of length zero
```

1.3 Agent Production Parameters

```
Error in shbasic::sh.checkFilename(filename):  Filename C:/Data/LURG/workspace/craftyr/inst/extdata/data/ve
does not exist!
```

1.4 Agent Parameters
